

NEW JEEP® RENEGADE

Jeep[®]
THERE'S ONLY ONE

Experience the combination you have been looking for: the practicality of the city and the vitality of nature, whilst moving in perfect harmony with both. With its renewed and valiant exterior, comfortable interior and savvy technology, the New Jeep[®] Renegade is your all-access pass to where you want to go.

DUAL SOUL.

THE CITY FOLLOWS SUIT.

Playing catch up is never fun. Being the leader sure is. The distinctive restyling of the legendary seven-slot grille, fittingly embedded front head lights as well as the middle and low fascia are all part of the what can only be the bold figure of a Jeep®. The city has been warned. Jeep® Renegade is not to be messed with.

A CUE FROM A VIEW.

To be seen is simple, but to get noticed lies in the details. The fresh new LED lighting design with the exclusive X of Renegade - inspired by the design of vintage American gas cans - is rousing, powerful and has the mark of a true trendsetter.

YOUR SKY JUST OPENED UP.

The heavens are now at your fingertips. As only a Jeep® vehicle can do, Renegade makes open-air freedom possible whenever and wherever you are. The sunroof is available in power tilt/slide function and the exclusive My-Sky removable panels. Now you can take in a view that is as unique as you.

MARKS
THE SPOT.

With the My-Sky open-air sunroof watch as your perspective takes a new turn. Simply remove the lightweight fiberglass polyurethane roof panels and comfortably store them in the specific bag in the boot, leaving plenty of room to spare.

ALWAYS IN YOUR ELEMENT.

Being comfortable must be a top priority for any great adventure. The new Jeep® Renegade interiors have been tailored for function and enjoyment, like the stylish two-tone leather Polar Plunge available in the Renegade Limited model and the impressive Black leather with Ruby Red stitching and embroidered logo for the Trailhawk off-road special trim.

PLAY BY YOUR OWN RULES.

There are THE rules, and then there are YOUR rules. New Renegade makes sure that one never does without the other, thanks to the 4th generation Uconnect™ Nav and infotainment system, boasting an up to 8.4" full colour, high definition touchscreen. Whether it is a touch, pinch, zoom or voice command, you get to stay focused on what you need to do and connected to what you want to be.

Unlock the potential of your iPhone with Apple CarPlay™, giving you smart and safe access to Apple Maps, Phone, Messages and Apple Music through Siri or the Uconnect™ touchscreen. Image refers to Apple CarPlay™.

AN INNATE CONNECTION.

Stay cool, or warm, with integrated climate control that manages the automatic dual zone air conditioning system that can now be regulated directly on the infotainment touchscreen.

Get the most out of your Android smartphone with Android Auto™, which enables easy connection via touchscreen and steering wheel controls to handsfree voice control, Google Maps, Google Play music. *

Learn from the experts using the Jeep® Off-Road Pages App that let you gauge and measure pitch, roll, pressure and altitude in addition to your overall performance to give your adventure that extra boost of confidence.

* Requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher. Google, Google Play, Android Auto and other related marks are trademarks of Google LLC.

Navigation System

Jeep® Off-Road Pages

Please note the connectivity services of Jeep, Off-Road Pages, will be active starting approximately September 2020. For more information regarding the timing and activation please refer to the official Jeep website.

MY ASSISTANT

To receive alerts and assistance in the event of an accident or breakdown concerning your Jeep®.

MY REMOTE

To find and control your Jeep® at all times.

MY CAR

To monitor and take care of your Jeep®.

MY NAVIGATION

To receive real-time information on traffic conditions, weather and speed cameras along your route.

MY WI-FI

Surf the Internet and connect multiple devices to your Jeep® at the same time.

MY THEFT ASSISTANCE

To receive help and assistance in the event of theft and recovery of your Jeep®.

Uconnect
SERVICES

FREEDOM IS CONNECTING.

Download My Uconnect mobile app or go to the official Jeep® website to take advantage of all services.

Please note that the connectivity services of Customer Care, Vehicle Health Report, At-Home Digital Assistant, Drive Alerts, Eco Score, E-Control, Vehicle Info, Vehicle Health Alert, In-Vehicle Notifications, Send & Go, POI Search, Live Weather/ Live Traffic/ Live Speedcams, Parking Finder/Fuel Finder, Last Mile Navigation, Charging Station Finder, Dynamic Range Mapping, Charge & Pay, will be active starting approximately from September 2020. For more information regarding the timing and activation for the individual services mentioned above, please refer to the official Jeep® website.

MY ASSISTANT

MY REMOTE

MY CAR

MY NAVIGATION

MY WI-FI

MY THEFT ASSISTANCE

Wherever you are, stay connected with your Jeep®, directly from your vehicle or from the My Uconnect mobile app.

Start your journey in total comfort and safety with Uconnect Services.

MY ASSISTANT

SOS Call

Through the My Uconnect mobile app, radio display or built-in SOS button, contact the emergency service call center (24/7) that receives your last known GPS location and vehicle identification number. An automatic call is generated under certain crash conditions.

Roadside Assistance

Directly contact the call center to receive roadside assistance through the My Uconnect mobile app, radio display, built-in Assist button in the vehicle or automatically if a major system is compromised.

Customer Care

Contact the call center with your questions and concerns about your vehicle through the My Uconnect mobile app, radio display and built-in Assist Button. Your car provides vehicle location and vehicle identification number.

Vehicle Health Report

Receive emails or notifications through the My Uconnect mobile app and web portal, you will receive information about the health and maintenance of your vehicle.

MY REMOTE

Remote Operations

Interact and send commands to your vehicle, like locking or unlocking the doors and controlling the vehicle's lights even when you aren't close to it through your smartwatch or My Uconnect mobile app.

Vehicle Finder

Visualize your vehicle's location on your smartwatch and smartphone, through the My Uconnect mobile app or web portal, you can also launch pedestrian directions from your position to the vehicle.

Eco Score

Understand how your driving can reduce fuel consumption and CO₂ emissions through real-time data analysis visible on the vehicle's display, My Uconnect mobile app and smartwatch.

Not available on 4xe version

Drive Alerts

Stay in control of your vehicle even when it is driven by another person. Receive alerts on My Uconnect mobile app or web portal for preset parameters.

At-Home Digital Assistant

Get vehicle info, send destinations, search points of interest (POI), lock and unlock doors and control the vehicle lights, using your At-Home Digital Assistant.

E-Control

When the vehicle is already plugged, start charging using My Uconnect mobile app or through the specific button on the recharge door.

Available only on 4xe version

Schedule recharge of your vehicle on daily basis using My Uconnect mobile app or through the specific button on the recharge door.

Turn on climate of your vehicle remotely using My Uconnect mobile app.

Please note that the connectivity services of Customer Care, Vehicle Health Report, At-Home Digital Assistant, Drive Alerts, Eco Score, E-Control, Vehicle Info, Vehicle Health Alert, In-Vehicle Notifications, Send & Go, POI Search, Live Weather/ Live Traffic/ Live Speedcams, Parking Finder/Fuel Finder, Last Mile Navigation, Charging Station Finder, Dynamic Range Mapping, Charge & Pay, will be active starting approximately from September 2020. For more information regarding the timing and activation for the individual services mentioned above, please refer to the official Jeep® website.

MY CAR

Vehicle Info

Get real-time information on your vehicle's fuel level, tire pressure, odometer and oil life on a smartwatch, the My Uconnect mobile app or the web portal.

Vehicle Health Alert

Receive specific push notifications about powertrain, oil, fluids, brakes, suspension, safety and lights on a smartwatch, the My Uconnect mobile app or the web portal.

In-Vehicle Notifications

You can receive notifications about predictive maintenance and service subscriptions. For service subscriptions you can receive a call directly on vehicle's touchscreen.

MY NAVIGATION

Send & Go

Using the My Uconnect mobile app, choose your destination and send it directly to your vehicle's navigation system to get you on your way.

POI Search

Easily search for points of interest (POI) directly on the map of the My Uconnect mobile app, and send them to your vehicle's navigation system.

Live Traffic / Live Weather / Live Speedcams

Get live traffic, weather and speed camera alerts on your touchscreen, keeping you up to date on all the most important details to guarantee a smooth journey.

Parking Finder / Fuel Finder

You can find nearest off-street parking locations and gas stations with details including opening hours, address, phone and real time availability.

Available only on 4xe version

Last Mile Navigation

Park your vehicle and get the walking route towards your destination on your smartphone.

Charging Station Finder

You can visualize public charging stations and some specific information both on My Uconnect mobile app and radio display.

Available only on 4xe version

Dynamic Range Mapping

My Uconnect mobile app graphically displays **on the map** the reachable area based on real time battery level.

Available only on 4xe version

Charge & Pay

You can visualize charging station location and availability, choose it, start the recharge and pay once charged.

Available only on 4xe version

MY WI-FI

Wi-Fi Hotspot*

After registration on the Ubigi website (Ubigi.me selfcare) and on-board connection through the radio, connect up to 8 devices to easily surf the web, stream shows and music, creating the most enjoyable trip for all passengers.

*Wifi on-board by Ubigi.

MY THEFT ASSISTANCE

Theft Alarm Notification

Receive notifications via SMS, My Uconnect mobile app or web portal of any suspected theft, unauthorized movement or security breaches related to your vehicle.

For more information regarding the timing and activation for the individual services mentioned above, please refer to the official Jeep® website.

ENERGY YOU CAN HEAR.

The Sound System by KENWOOD is powered by 1 digital amplifier 8 channels 560Watt and transforms your daily soundtrack into a personal concert. The new tuning maintains an extraordinarily uniform and defined sound and with its 9 HiFi speakers it envelops the passengers with rich, dry basses, natural voices and crystal-clear trebles. 9 speakers: 2 tweeters 3,5" on dashboard / 2 tweeters 1" on rear doors / 4 mid woofer speakers 6x9" on front & rear doors / 1 bass-reflex Subwoofer with 6,5" HiFi double coil speaker.

Nowadays, looking over your shoulder is not enough. With over 60 safety and security features easily understood via audio and visual warnings, including Lane Departure Warning Plus, Intelligent Speed Assist and Traffic Sign Recognition standard on all trims, the new Jeep® Renegade actively and passively keeps an eye out, senses obstacles and dangers for you and your passengers. Navigate through any difficulty you may encounter on the road and stay focused on the fun.

FORWARD COLLISION WARNING PLUS

Radar and video sensors detect whether the Renegade is approaching another vehicle or large obstacle in its path too rapidly and will warn or assist the driver in avoiding/mitigating the incident.

EMERGENCY BRAKING - CAMERA ONLY

Thanks to an advanced calibration of the Front Camera, Renegade Plug-in Hybrid is able to provide the extra-urban emergency braking function without the need of a front Radar. Thanks to Radar avoidance Emergency braking is now available also for Trailhawk.

LANE DEPARTURE WARNING PLUS

The vehicle lane position is monitored by cameras and provides a visual warning if the vehicle approaches the lane boundaries unintentionally. Additionally, in case of lane drift the system proactively leverages the electronic power steering to help the driver in taking a corrective action and getting back in the lane.

BLIND SPOT MONITORING AND REAR CROSS PATH DETECTION

These sentry systems constantly monitor the space between you and other vehicles. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors and an audible chime.

REAR CAMERA WITH DYNAMIC LINES

The ParkView back-up camera provides perfect visibility when reversing and assists the vehicle's movement and direction thanks to the Dynamic Lines visible on the Uconnect™ screen.

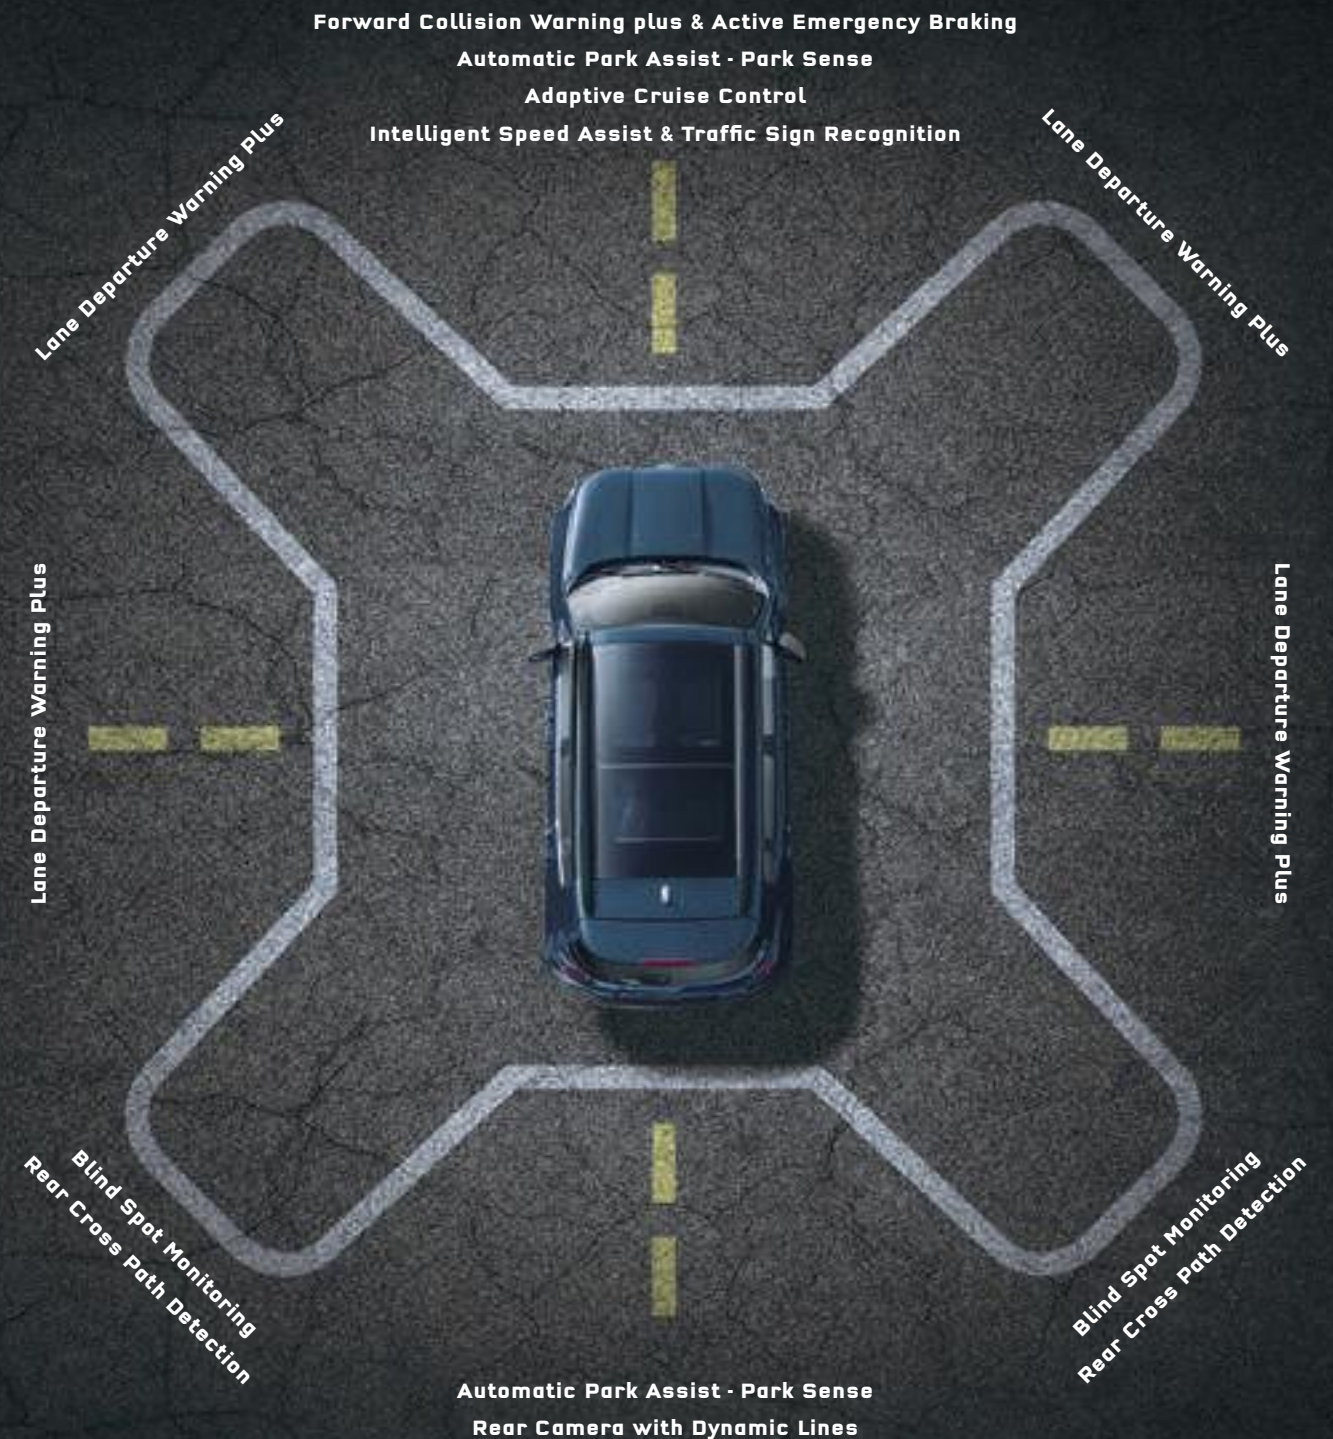

AUTOMATIC PARK ASSIST - PARK SENSE

The system locates a parking space and guides the driver with audio and video instructions that also appear on the TFT instrument cluster. Plus, the new automatic pull-out function that assists in getting out of the parking spot. The driver needs to control the gear, brake and throttle position while the steering system controls the steering wheel.

DROWSY DRIVER DETECTION (only available on Renegade Plug-in Hybrid)

The system detects the level of driver fatigue. A dedicated text message is sent to suggest the driver to rest when needed. Furthermore, an icon is added for the entire key cycle, even after removing the message on the TFT. This icon will disappear only if the driver stops, turns off the vehicle and rests.

INTELLIGENT AWARENESS.

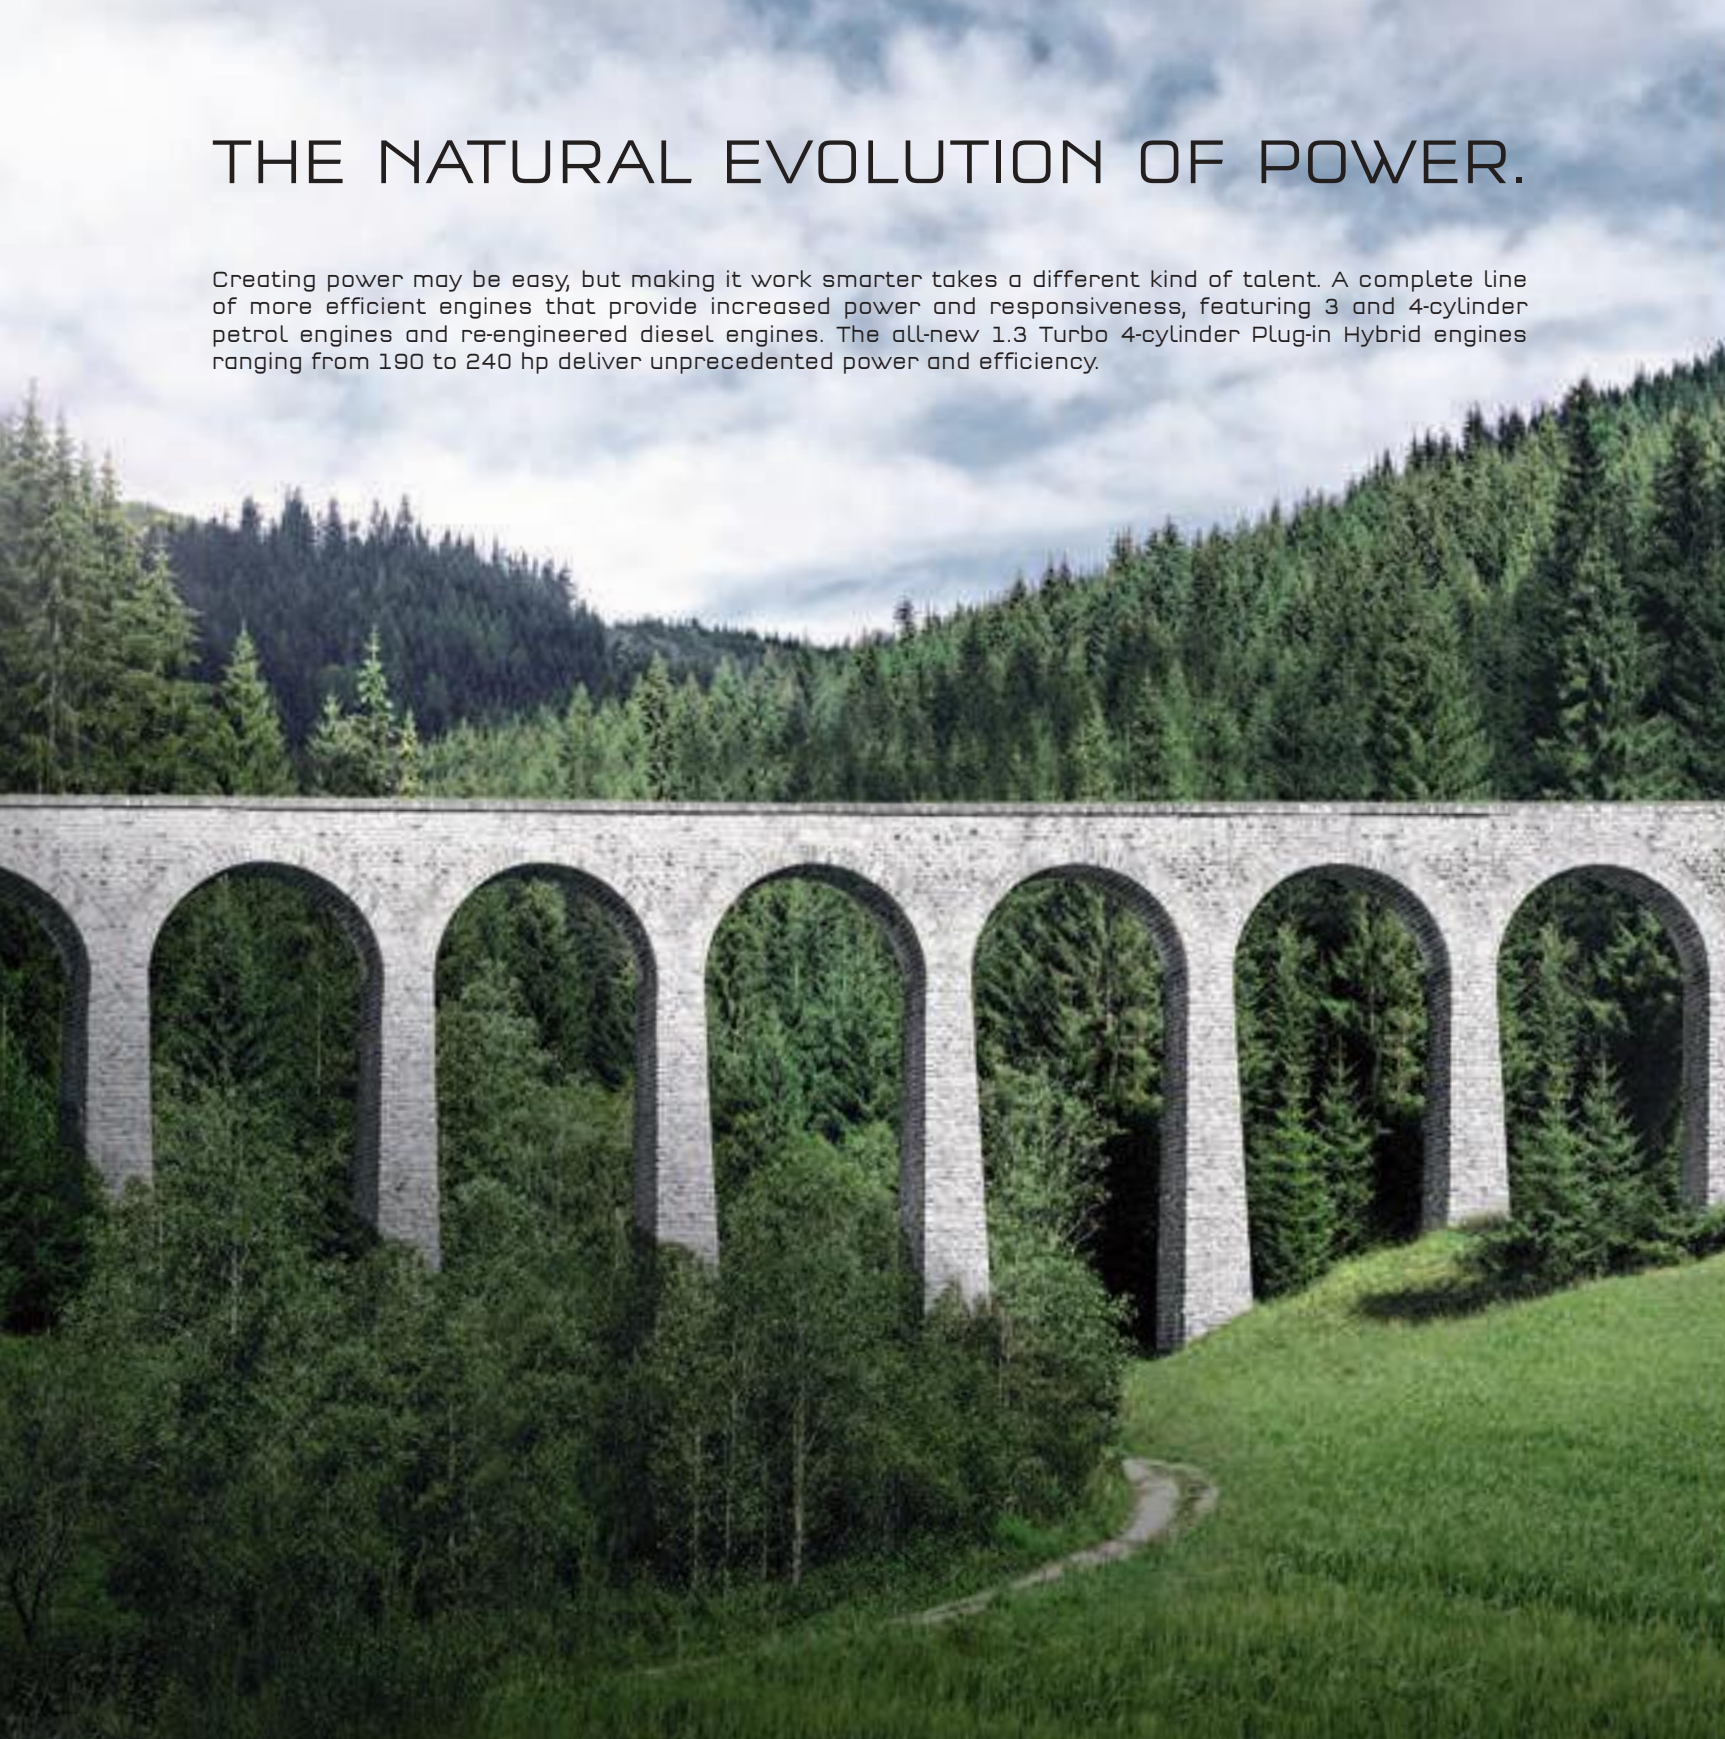

Sometimes the details can get lost along the way, but with the state-of-the-art Traffic Sign Recognition system (TSR) you are alerted about overtaking, speed limit changes and possible restrictions directly on the 3.5" or 7" TFT display. Combined with the Intelligent Speed Assist (ISA), you can quickly accept increases or decreases to speed, and activate or deactivate the system all via intuitive steering wheel controls.

THE NATURAL EVOLUTION OF POWER.

Creating power may be easy, but making it work smarter takes a different kind of talent. A complete line of more efficient engines that provide increased power and responsiveness, featuring 3 and 4-cylinder petrol engines and re-engineered diesel engines. The all-new 1.3 Turbo 4-cylinder Plug-in Hybrid engines ranging from 190 to 240 hp deliver unprecedented power and efficiency.

MAKE YOUR OWN WAVE.

And Renegade will make sure it is a smooth ride. Choose from three outstanding transmissions: the class-exclusive 9-speed automatic offers seamless gear changes for a perfect fluidity and a comfortable driving experience, or the advanced 6-speed dual clutch that combines the performance of a manual transmission with the easy-to-use nature of an automatic or the classic 6-speed manual. Complete with 4x2 or 4x4 options, featuring rear-axle disconnect for maximum efficiency. The all-new 1.3 Turbo 4-cylinder Plug-in Hybrid engines enhance Renegade performance and efficiency to never reached before levels.

PETROL	1.0 Turbo 3-cylinder	120 HP	4x2	6 speed	MT
	1.3 Turbo 4-cylinder	150 HP	4x2	6 speed	DDCT
		180 HP	4x4	9 speed	AT
PLUG-IN HYBRID	1.3 Turbo 4-cylinder	190 HP	4x4 Low	6 speed	AT
		240 HP			

For complete information about CO₂ emission and fuel consumption please refer to pages 72-73.

DIESEL	1.6 MultiJet II	120 HP	4x2	6 speed	MT
					DDCT
	2.0 MultiJet II	140 HP	4x4	6 speed	MT
		140 HP	4x4 Low	9 speed	AT
		170 HP			

For complete information about CO₂ emission and fuel consumption please refer to pages 72-73.

4xe

A NEW ENERGY

FOR MORE FREEDOM.

Vehicles will be available on market in the first semester 2020.

REDEFINING LIMITLESS.

RENEGADE PLUG-IN HYBRID 4xe

SAFETY

The innovative electric 4x4 system in the new Jeep® Renegade 4xe Plug-in Hybrid is always available and always ready, ensuring maximum traction and control in all driving conditions. Includes all technological safety features, including Lane Departure Warning, Traffic Sign Recognition and the brand new Drowsy Driver Detection that help the driver stay alert and aware off the vehicle's surroundings for even greater security for all those on board.

REFINEMENT

Jeep® Renegade 4xe Plug-in Hybrid is the sophisticated evolution of a legendary spirit. On every road, enjoy the comfortable ride with the smooth transition between its combustion engine and electric motor with such smoothness and ease, especially with a new 6-speed automatic transmission. Drivers can experience new comforts when starting off with preconditioning by setting the interior to the right temperature before even getting in. Keeping the right speed on the highways just got easier too with Adaptive Cruise Control, helping you focus only on the road ahead.

PERFORMANCE

More performance in every sense of the word. The Jeep® Renegade 4xe Plug-in Hybrid delivers more off-road capability, up to 240 hp, greater torque while emitting less than 50g of CO₂ in hybrid mode. Choose between three new driving modes, Hybrid, E-Save and Electric, allowing you to travel up to 50km with zero emissions in full electric mode. With two powerful, efficient engines, and the possibility to reach a full charge in less than two hours with quick charge modes, you will never be without the power you need to reach your destination.

FUN

Experience the fun of driving a vehicle that offers endless possibilities. The combination of two powerful engines allows you to take on city streets in compliance with emissions regulations and on the trail while being more sustainable. Choose the dedicated Sport mode, exclusive to Plug-in Hybrid models, and begin to enjoy all the fun of two engines working together.

EMPOWERING MORE POSSIBILITY.

The all-new Jeep® Renegade 4xe combines the latest Plug-in hybrid technology with an efficient 1.3L Turbocharged petrol engine. By itself, the petrol engine features two power steps, 130 HP and 180 HP. When combined with the perfectly placed rear axle electric motor, the first-ever Jeep® 4xe will reach 190 HP and 240 HP with added torque and capability. Its sophisticated board technologies communicate and work together to deliver three different hybrid driving modes that get the most out of the 11,4 kWh battery and the eco-friendly motor. In full electric mode the powerful electric motor is capable of reaching 130 km/h of maximum speed on its own and can travel up to 50km on a full charge. A modern compact SUV designed for urban environments and created to deliver authentic and sustainable freedom like never before.

For complete information about CO₂ emission and fuel consumption please refer to pages 72-73.

MORE CONTROL TO REACH
NEW HEIGHTS.

The new Jeep® Renegade Plug-in Hybrid generates a new kind of sustainable power thanks to the dedicated electric motor. Leveraging on its legendary off-road capabilities, Jeep® has developed a sophisticated electronic four-wheel-drive system to surpass the mechanical limits of traditional 4x4 systems. In the end Jeep® Renegade Plug-in Hybrid is able to create up to 50% more torque, outperforming traditional combustion engines while being more sustainable. Enhanced torque management means better efficiency and better crawl capability in off-road situations for unrivaled versatility. As always, the Trailhawk trim guarantees maximum freedom with its Trail Rated badge.

For complete information about CO₂ emission and fuel consumption please refer to pages 72-73.

AUTO The default selection that is perfect for everyday driving and uses the rear electric motor when necessary to engage the electric 4x4 system.

MUD / SAND Uses the electric 4x4 system for increased torque and traction at low speeds, implementing specific chassis controls, differentials and transmission ratios to conquer the sand and mud.

SPORT The combustion engine and electric motor work together to guarantee the most sporty driving experience.

ROCK Exclusive to Trailhawk, this mode delivers skillful low-speed electric 4x4 capability due to its rear-differential locking mechanism, allowing Renegade to overpower the most challenging terrain.

CHOOSE WHEN TO CROSS PATHS.

The legendary off-road capability of Renegade is highlighted by the incomparable electric 4x4 system featuring Jeep® Active Drive Low that assures Jeep® performance when and how you need it most. Thanks to the electric motor placed strategically on the rear axle, the rear wheels are powered directly, without the use of a traditional drive shaft without driver intervention guaranteeing the efficiency and the right amount of power and traction needed to drive in any condition. Both systems feature the Selec-Terrain™ traction system that allows the driver up to five of specifically calibrated settings for various road conditions: Auto, Sport, Mud/Sand, Snow and Rock, exclusively for the Trailhawk.

SNOW Adds stability and minimises oversteer for security and performance on snow and ice covered roads. Major systems are managed to guarantee a smooth ride.

NEW CHALLENGES, DEDICATED SOLUTIONS.

7" INSTRUMENT CLUSTER

CHARGE LEVEL
ELECTRIC RANGE
% POWER / CHARGE

Stay focused on the road and easily check the state of your battery's charge, range and even get coached on how to drive more efficiently.

E-COASTING

ENERGY REGENERATION
DURING COASTING CONTROL

Charge your battery even while you are on the go with e-coasting, which uses the negative torque of engine brake as a way to recharge the battery.

HYBRID MODE SELECTOR

By choosing the one of the three driving modes, Renegade intelligently adapts to optimize the power and efficiency of both the traditional and electric motors.

HYBRID

Enjoy the ride as your vehicle does all the work, automatically managing the power flows between the two engines to reach the maximum efficiency.

E-SAVE

Save your battery for later use or you can charge the battery through regenerative braking and e-coasting.

ELECTRIC

Now you're running solely on your battery. Feel the thrill of running on full electric power while driving around all major cities and low-emission zones in total freedom.

8.4" UCONNECT™ RADIO

POWER FLOW
DRIVING HISTORY
SCHEDULES
E-SAVE
CHARGE SETTING

View all of the information about your charge, driving efficiency, driving history, scheduled charging and much more all on the 8.4" Uconnect™ Touchscreen.

TAKE CHARGE OF YOUR FUTURE.

Charging the new Jeep® Renegade 4xe Plug-in Hybrid is intuitive, simple and suitable for urban commuters. The 8.4" Uconnect™ screen makes the battery charge easy to read and understand, but more importantly you can set scheduled charging times to fit your lifestyle. You can always charge your Renegade using a normal domestic outlet. Additionally, a dedicated Wallbox to be installed at home will allow you to get a full charge in less than two hours (up to 7.4 kW). When you are on the road, you will be able to charge in the public charging stations with a dedicated cable.

For complete information about CO₂ emission and fuel consumption please refer to pages 72-73.

STANDARD ELECTRIC OUTLET

Charge your vehicle with the standard cable wherever there is a domestic electric outlet

WALLBOX

The easyWallbox is the most practical and smart way to charge your vehicle at home

PUBLIC CHARGING

Use public charging stations to recharge your battery on the go.

AUTHENTIC ENERGY FOR EVERY JOURNEY.

For Jeep® Renegade Plug-in Hybrid getting your battery fully charged could not be easier. **EVBox Elvi** "connected wallbox" is the most efficient home-charging solution: Wi-Fi, Cellular SIM connectivity and a short time to reach a complete charge. Depending on the power of your private electrical system, your battery can go from empty to full in less than two hours. The main advantages of **EVBox Elvi** "connected wallbox" compared to easyWallbox are the *remote assistance* during the entire life cycle of the vehicle, the *Home Installation Pack* and the possibility to check and *track the charging history* thanks to the authentication of the single charging session (using the RFID card). You can also schedule the charging, taking advantage of the lower electrical fares during night time, through the Uconnect™ system or the mobile app. Download now the My Uconnect mobile app to take the advantages from your wallbox.

FUEL CONSUMPTION AND CO₂ EMISSIONS: Values calculated on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2019/1840. The values indicated for fuel consumption and CO₂ emissions are measured by the manufacturer on pre-approval tests, and may subject to modification depending upon the definitive homologation. The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, as well as the condition, use and equipment of the vehicle. The values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road

conditions, as well as the condition, use and equipment of the vehicle. The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with subsequent configuration depending on equipment selected and/or size of tires selected. The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the selected official dealer of the FCA network. In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the vehicle's accompanying documents. In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each Country.
